	color	Round 1	Round 2	Round 3	Round 4	Round 5	Round 6	Totals
Example: *Adam West*	R	*14* *14*	*7* *21*	*0* *21*	*18* *39*	*7* *46*	*0* *46*	***46***
Bruce Wayne	Y	*8* *8*	*-10* *-2*	*14* *12*	*-3* *9*	*8* *17*	*15* *32*	***32***

An example of scoring **Shuffleboard** is above. Red goes first in round one, then alternate.
This is 1-on-1 competition, not teams. Each court has 2 boards. The people beside each other compete against each other. They have nothing to do with the people on the other end.
Beside the participant's name in the 1st box, it is best to write what color they are using, so you won't put scores on the wrong person.
White triangles are for the score of that round. Gray triangles are where you write the running totals. Circle the winner's total when you finish scoring.

	color	red		red		red		Totals

	color	red		red		red		Totals

	color	red		red		red		Totals

	color	red		red		red		Totals
